THE SIXTY-SIXTH REPORT OF THE REGISTRAR-GENERAL ON THE VITAL STATISTICS OF QUEENSLAND FOR THE YEAR 1925.

The 1925 Annual Report of the Vital Statistics for the State of Queensland is herewith presented.

The following tables enumerating and classifying the Births, Marriages, and Deaths which occurred during the year are given.

On the 4th April, 1921, the Commonwealth Government took a Census of the people of Australia, but the compilation of the tables and report thereon is still incomplete.

BIRTHS.

The births registered during the year numbered 20,282—10,317 males and 9,965 females—576 more than in the previous year, 1924. The birth rate declined from 23·88 in 1924 to 23·82 in 1925. The same is common to all the Australian States, and whether the proposed Child Endowment Schemes that are now suggested will make any appreciable difference is a matter for conjecture. This, with an increasing population from year to year, is a matter for serious consideration. The birth rate for Queensland fell from 27·58 in 1920 to 23·82 in 1925, almost 5 per cent.

MARRIAGES.

6,471 marriages were registered in Queensland during 1925, an increase of 238 on those for the previous year. Included in these marriages were 267 males and 1,517 females under the age of twenty-one years. 6,212 marriages were celebrated by ministers and 259 in Registry Offices. The rate per 1,000 of the mean population fell from 9·08 in 1920 to 7·60 in 1925. The decline in the marriage rate is another matter for consideration as this will be reflected in the birth rate. The following are the numbers of marriages celebrated by the principal religious denominations:—

Church of England	1,992
Roman Catholic	1,475
Methodist	1,071
Presbyterian	972
Other Denominations	702
By Registrars	259
	6,471

DEATHS.

The deaths numbered 7,544, of whom 4,580 were males and 2,964 females, being a decrease of 216 on those for the previous year. The death rate per 1,000 of the mean population showed a decrease of 0·02 on that for the previous year.

The principal causes of death were:—

Heart Disease, all kinds	1,130
Cancer, all kinds	692
Senility	509
Congenital debility, &c.	463

The Infantile Mortality for the year 1925 shows a slight decrease of 0·59 on that for the previous year of 1924, viz., from 5·13 in 1924 to 4·54 in 1925.

NOTE.—The Curator of Intestate Estates is empowered to apply for an order to administer the Estate of any deceased person leaving real or personal estate who has died intestate, and who leaves no widow nor next of kin resident within the jurisdiction of the Court; also, when any person has died testate and appointed the Curator as executor, or leaving no executor, or no executor willing and capable of acting in execution of his Will; or when any person has died testate and the Court is satisfied that any of the effects of the deceased may probably be purloined, lost, or destroyed; and in a few other instances where urgency is required.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest, the purchase money being nominal.

†† Exclusive of 209 acres, yielding 4,007 tons of cane, which was cut in Mackay, but destroyed.
§ Crushed in Bundaberg. ‖ Part crushed in Maroochy.

N.B.—According to the "Imperial Food Journal," it is proposed to form a Sugar Federation of the British Empire, and steps in that direction are being considered by a committee representing all the sugar-producing and many of the sugar-using interests of the Dominions. At present most of the Empire cane sugar comes from Mauritius, West Indies, British Guiana, Australia, and India, but the total is only about 16 per cent. of the aggregate import of sugar into the United Kingdom. Now that an Empire preference is operative, the time is ripe for an organised effort to encourage the Empire to grow most, if not all, of the sugar refined in Great Britain.

* From 1883 number and tonnage of vessels calling at more than one port in Queensland during same voyage only counted once.

† Prior to 1907 the exports of wool have been taken as the production of wool, scoured being expressed as greasy on the basis that one pound of the former equals two pounds of the latter, except for the years previous to 1866, when greasy and scoured wools were not separated in the Customs returns.
